-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 20, 21 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 20, lines 4-5, the limitation "said spring member comprises a spacer" renders the claim vague and indefinite since the spring member is separate from the spacer.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17-21, 23 and 47 are rejected under 35 U.S.C. 102(b) as being anticipated by Farris et al. (US 6,485,491).

Farris et al. disclose an apparatus 20 including: a housing 22d having a horizontal indentation; a longitudinal member 36 received in a first opening of housing 22d; a washer or spacer 26d received in a first opening of housing 22d and positioned below the horizontal indentation; a fastener 24 engageable with a bone portion to connect member 36 to the bone portion wherein fastener 24 has a first part spherical surface engageable with housing 22d and a second part spherical surface engageable with spacer 26d; a snap-ring or "compressible member" or "spring member" 28' engaging both the horizontal indentation and the spacer; and a clamping mechanism or set screw 30 that clamps longitudinal member 36 in housing 22d (Figures 1, 17 and 53,

Art Unit: 3732

col. 5, lines 9-15, col. 6, lines 4-39 and lines 54-67, col. 7, lines 1-43 and col. 11, lines 6-44).

Response to Arguments

Applicant's arguments submitted under "REMARKS" in the response filed on June 9, 2005 have been carefully considered.

Applicant's arguments with respect to claim 1 are persuasive. However, Applicant's arguments with respect to claims 17-21, 23 and 47 are not persuasive for the following reasons.

The claims do not recite the limitation of the spacer having a radial surface below a horizontal indentation in a second passage of the housing wherein a member engages both the horizontal indentation and the radial surface of the spacer to apply an axial force to the spacer to prevent relative movement between the fastener and the housing.

Applicant's affidavit submitted on March 24, 2005 has been considered. The affidavit refers to the system described in the instant application. The affidavit does not address the individual claims of the application except for claim 1. Although the affidavit mentions commercial success it fails to establish that the alleged commercial success is derived directly from the invention claimed, in a market place where the consumer is free to choose on the basis of objective principles, and that such success is not the result of heavy promotion or advertising, shift in advertising, consumption by purchases normally tied to applicant or assignee, or other business events extraneous to the merits of the claimed invention, etc.

Allowable Subject Matter

Claims 1-5, 7-16, 22, 48 and 49 are allowed.

Conclusion

THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
